

COREOPSIS

Available in

CREME BRULEE

Coreopsis verticillata 'Creme Brulee' ('Cremebru') PBR/USPP#16096

Creme Brulee upgrades 'Moonbeam', with larger, deeper yellow flowers and greater vigor. Flowers have attractive serrated petals. Foliage is brighter green and demonstrates better resistance to powdery mildew.

USES & ATTRIBUTES: Front border, middle border, container, cut flower, long-blooming. Attracts butterflies and bees. Deer-resistant.
