

FILIPENDULA

Available in

RED UMBRELLAS

Filipendula palmata Red Umbrellas ('Wbprest') USPP#23129

Many small plumes of pink flowers bloom in summer. Unique red markings on pale green leaves make this a "must-have". Foliage is darkest in spring, lightening as the plant flowers. Neat, compound habit.

Uses & Attributes Middle border, cottage garden, container, cut flower. Attracts bees.
